

# PACKVORI

## OPP & PE Packaging Bags

Product overview · 2026

PACKVORI focuses on practical OPP and PE packaging bags for B2B buyers. Custom sizes and requirements can be discussed based on the product, application, quantity and destination.

# OPP Self-Adhesive Bags

Clear OPP bags with a self-adhesive flap for clean product presentation and easy closure.

## Key points

- Clear product visibility
- Self-adhesive flap
- Custom size and thickness can be discussed
- Suitable for garments, stationery, retail goods and selected food/bakery applications

For quotation: share the bag type, size, thickness (if known), quantity, application and destination.

# PE Garment Bags

Flexible PE packaging for folded garments and textile products where simple protective packaging is required.

## Key points

- Flexible polyethylene film
- Suitable for folded apparel
- Custom size and thickness can be discussed
- Useful for garment protection and retail packing

For quotation: share the bag type, size, thickness (if known), quantity, application and destination.

# How to prepare an inquiry

|                              |                                                      |
|------------------------------|------------------------------------------------------|
| <b>Product / application</b> | What are you packaging?                              |
| <b>Bag type</b>              | OPP self-adhesive, PE garment bag, or another format |
| <b>Size</b>                  | Width × length, or product dimensions                |
| <b>Thickness</b>             | Target thickness if known                            |
| <b>Quantity</b>              | Expected order quantity                              |
| <b>Destination</b>           | Country or market for delivery                       |
